10. The Food Corporation of India and the A.P. State Civil Supplies Corporation Ltd., shall make arrangements for procurement of 7.50 Lakh MTs of paddy each in Kharif and Rabi Season in the districts allotted to them by the Commissioner of Civil Supplies. The MSP operations for Kattera paddy (early crop) shall commence immediately.

11. (a) The procurement of paddy by the FCI and the AP State Civil Supplies Corporation under the MSP operations shall be done with the help of Women Self Groups of IKP / DCMS / PACSs and on their own in all the paddy growing districts as per the districts allotted to them by the Commissioner of Civil Supplies depending upon the availability of experienced and active S.H.G.s / DCMS / PACSs as mutually decided by the Managing Director, A.P. State Civil Supplies Corporation Ltd, Managing Director and Chief Executive Officer, SERP. The procedure for the operations, transportation, storage, milling delivery etc., will be worked out, depending on the decision on handling by SERP (IKP Groups) whether independently or through A.P. State Civil Supplies Corporation Ltd. This procedure is expected to benefit the small and marginal farmers to sell their produce at village level and to save the expenditure and mitigate the problems in transportation of paddy to AMCs and consequent handling at the Market Yard besides reducing the congestion at Market Yards.

12. The Rice Milling Industry shall deliver 62 lakh tonnes of levy rice to F.C.I during Kharif Marketing Season 2009-10, (i.e., from 1st October, 2009 to 30th September, 2010) i.e. a quantity of 37.00 (Thirty Seven) Lakh MTs of raw rice and 25.00 (Twenty Five) Lakh MTs of boiled rice. This performance expectations are indicated based on the existing rice production prospects of Kharif and this can be revised upwards depending upon the production prospects of rice in Rabi season. It is decided that in Kharif season a performance expectation of 30 lakh tonnes of raw rice and 13 lakh tonnes of boiled rice will be communicated to the rice millers in the State.

13. The rice Millers / traders shall deliver 75% of the rice milled pertaining to all varieties other than superfine preferred varieties to the FCI under mill levy. The Commissioner of Civil Supplies may however review the performance vis a vis the performance expectation from time to time and depending upon the need to step up

the procurement of rice to meet the requirements of PDS, may permit delivery of raw rice to the FCI upto 100% subject to maintaining the levy percentage at 75% treating the State as a Unit.

14. The superfine preferred varieties rice shall be sold within the State only as this has a good demand from the public and the available rice of these varieties meets only a part of the demand. There shall be no need to obtain any permit for movement from one district to another for superfine preferred varieties rice within the State except for the districts of Nellore and Chittoor. The movement of superfine preferred varieties of rice to Nellore and Chittoor districts shall be on special permits only.

15. The rice millers shall also be required to sell Superfine (preferred) varieties to the APSCSCL as per the quantity indicated and at the price as may be decided after negotiations so as to enable the APSCSCL to supply the same to the card holders at affordable price through special counters with a view to keep the price of these varieties of rice under control.

16. The Commissioner of Civil Supplies is authorized;

- i) to fix district-wise performance expectation of raw rice and boiled rice for delivery under mill levy to FCI, depending upon the production of paddy, rice milling capacity and the past performance in consultation with the representatives of the Rice Millers Association, A.P., Food Corporation of India and the A.P. State Civil Supplies Corporation Ltd keeping in view the requirement of A.P raw rice for P.D.S. and other welfare schemes. The Collectors shall distribute the same among the district rice millers in consultation with the District Rice Millers Association and in such a way that there is a ratio between raw and boiled rice deliveries so that more boiled rice is not delivered in preference to raw rice and there is no shortfall of raw rice for PDS.
- ii) to revise the performance expectation from time to time, depending upon the progress in purchase of paddy at MSP, rice mill levy delivery and other priorities of the Government.
- iii) to issue orders to the VC & Managing Director, A.P. State Civil Supplies Corporation to purchase raw rice if any required locally for supplementing the needs of PDS within the State as per FAQ norms prescribed by the Government of India. The rate of purchase shall be the same as procurement rate of KMS 2009-10 as agreed by the rice millers during the discussions held on 28-08-2009 . The actual quantity required shall be indicated separately.
- iv) to issue orders to the Collector(CS) for issue of release certificates for sale of levy free rice within the State expeditiously so as to make adequate quantity of raw rice available in the open market and keep the price of rice under control. This is necessary in order to ensure that while procuring required rice for Central pool for meeting PDS, the prices of rice in the open market are also kept under control. The Collector(CS) may be authorized to issue the levy free permits for sale of levy free rice within the State.
- v) to continue the same procedure which is being followed during the KMS 2008-09 in respect of movement of levy free rice to places outside the State. The Commissioner of Civil Supplies, A.P. Hyderabad shall permit the movement of 1/3rd of 25% of levy free raw rice other than superfine (preferred) varieties by railway rakes only. In respect of boiled rice entire 25% boiled rice shall be allowed to be moved by railway rakes initially and after satisfying that adequate quantity of rice is procured for Central Pool during the KMS 2009-10, a decision may be taken whether movement of road can be permitted.

Hyderabad shall issue orders to the Collectors(CS)/ Chief Rationing Officer, Hyderabad to permit the transfer of levy free eligibility within the State and outside the State by the rice millers / traders at appropriate time during the KMS 2009-10 as was done during the KMS 2008-09 .

**NOTES APPLICABLE TO THE SPECIFICATION OF GRADE 'A' AND COMMON
VARIETIES OF RICE**

1. The definition of the above refractions and method of analysis are to be followed as given in Bureau of Indian Standard "Method of analysis for Foodgrains" No's IS : 4333 (Part-I) 1996 and IS : 4333 (Part - II) 2002" Terminology for Foodgrains" IS : 2813 - 1995 as amended from time to time. Dehusked grains are rice kernels whole or broken which have more than 1/4 of the surface area of the kernel covered with the bran and determined as follows:-

ANALYSIS PROCEDURE :-

Take 5 grams of rice (sound head rice and brokens) in a petri dish (80X70 mm). Dip the grains in about 20 ml. of Methylene Blue solution (0.05% by weight in distilled water) and allow stand to for about one minute. Decant the Methylene Blue solution. Give a swirl wash with about 20 ml of dilute hydrochloric acid (5% solution by volume in distilled water). Give a swirl wash with water and pour about 20 ml. of Metanil Yellow solution (0.05% by weight in distilled water) on the blue stained grains and allow to stand for about one minute. Decant the effluent and wash with fresh water twice. Keep the stained grains under fresh water and count the dehusked grains. Count the total number of grains in 5 grams of sample under analysis. Three brokens are counted as one whole grain.

CALCULATIONS :

$$\text{Percentage of Dehusked grains} = \frac{N \times 100}{W}$$

Where N = Number of dehusked grains in 5 grams of sample

W= Total grains in 5 grams of sample.

2. The Method of sampling is to be followed as given in Bureau of Indian Standard "Method of sampling of Cereals and Pulses" No IS : 14818-2000 as amended from time to time.
3. Brokens less than 1/8th of the size of full kernels will be treated as organic foreign matter. For determination of the size of the brokens average length of the principal class of rice should be taken into account.
4. Inorganic foreign matter shall not exceed 0.25% in any lot, if it is more, the stocks should be cleaned and brought within the limit. Kernels or pieces of kernels having mud sticking on surface of rice, shall be treated as Inorganic foreign matter.
5. In case of rice prepared by pressure parboiling technique, it will be ensured that correct process of parboiling is adopted i.e. pressure applied, the time for which pressure is applied, proper gelatinisation, aeration and drying before milling are adequate so that the colour and cooking time of parboiled rice are good and free from encrustation of the grains.
